

SRI LAKSHMI INDUSTRIES

Manufacturer of
SLI Wear Resistant
Products

Fibrizer Hammer Tips Unit

SLI CARBIDE TIPS

SLI HAMMER TIPS is extremely strong and wear resistant with carbide in a metallic block. This is metallurgically bonded with mild steel. Carbide hardness is 63 - 66 HRC. Various types and sizes are available.

SLI HAMMER TIPS can withstand the severe wear that happens due to sand, dust and other impurities comes with harvested sugarcane. Use of **SLI Block** reduces wear. Easily replaceable, reduces down time.

Higher performance of crushing gives longer life to the hammer tips and reduces power consumption. This is the most cost effective and time saving method

SLI KNIFE TIP

Wear Resistant Products

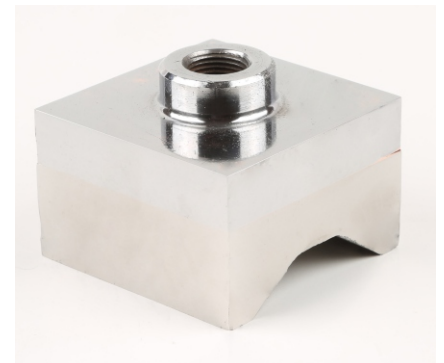

SLI KNIFE TIPS

SLI KNIFE TIPS, Leveler, Chopper, Cutter, Conventions body and Mincer attachments are available in various sizes with Single Edge, Double Edge and Flat Edge. Knife body is welded with special electrode which gives extra strength. This is the most cost effective and time saving method for knife body protection.

Inhouse quality control process ensures all blocks and knife tips
